	Year 7 Overview 2024-25 – Music							
Date	Wk	Week	Units Studied & Learning Outcomes	Key Concepts & Assessment				
	8 weeks (?? Lessons) (38Days)							
Tues 2-Sep	Α	1	Music and space (10 weeks)	<u>Curriculum areas:</u>				
9-Sep	В	2	Students will learn about the use and manipulation of dynamics including gradations of					
16-Sep*	Α	3	dynamics such as crescendo and diminuendo. They will aurally explore Gustav Holst's Planet	Listening – Deliberately listening to Holst's				
23-Sep	В	4	Suite and will perform the main theme from "Jupiter". They will either use Mixcraft or a	'Planet suite' and to be able to describe				
30-Sep	Α	5	more traditional route of using classroom sound sources to compose a class "Planets Suite",	and compare the different movements of				
7-Oct	В	6	building on skills and concepts learned about during the unit.	this music using appropriate music-specific terminology and understanding what				
14-Oct	Α	7	Lesson 1 – Understand how different moods can be achieved through the combination of	elements of music come together to create				
21-Oct	В	8	musical elements and experiment with ostinato and crescendo.	this type of musical texture and mood.				
			Lessons 2 and 3 – Explore "Mars, the Bringer of War" with a particular emphasis on tempo, dynamics and instrumentation. Compose, perform and evaluate a group piece in the style of "Mars" creating a suitable mood, using ostinato and other musical features as used by Holst. Lessons 4 and 5 – Explore the main themes from Holst's movement "Jupiter," learning to sing and perform one of these themes. Deliberate listening to identify tempo, dynamics and instrumentation in further movements from Holst's "Planets" Lesson 6 - Understand how different composers have portrayed the moon through music. Create an electronic soundscape about the moon, using a range of pre-recorded synthesised sounds and creating own sound effects manipulated using Mixcraft or acoustic instruments. Lesson 7 - Improvise in a limited time frame, an effective soundscape which describes the planet Pluto (the lost planet) paying particular attention to creating a particular mood. Lessons 8 and 9 – Create a musical soundscape describing one of the Planets using features which Holst uses in his music, selecting, refining and combining sounds and sound sources towards an effective descriptive piece following a composing brief. Lesson 10 - Sharing of work, recording and assessment.	Performing – Play themes from 'Mars' and 'Jupiter', both as an individual and as part of a group. Composing – Create own pieces which reflect the particular characteristics of a particular planet, using the techniques studied; and to perform their music to the rest of the class. Assessment of Progress: Written and verbal responses to both familiar and previously unheard music. Terminal performance and composition and resulting teacher assessment. Content will be assessed at ST2 (Summer 25)				

GW: Students can understand musical elements and talk about how they come together in Holst's 'Planet Suite' to create atmosphere and mood. They can create simple soundscapes which represent a particular planet.

BI: Students can understand musical elements and talk about how they come together in Holst's 'Planet Suite' to create atmosphere and mood. They can also hear and appreciate devices such as use of silence and ostinato. They can create soundscapes which represent a particular planet, using combinations of different elements of music.

EW: Students can listen with intelligence to different movements of the Planet Suite and discuss how particular musical elements combine to create particular and apt effects. They can perform and compose music, on their own and in a group, which helps to depict the nuances of a particular planet.

Vocabulary:

General elements of music eg rhythm, melody etc. Language specific to the genre eg ostinato, pulse, rhythm, dissonance, dynamics.

History:

Holst as a composer and the context of his work. The historical and social context of using music as a means of exploring the unknown – science v art.

			musical and historical context.	
Half-term	_	1		
4-Nov	А	9		
11-Nov	В	10		
18-Nov	А	11	REVISION, REHEARSAL AND PREPARATION	
25-Nov	В	ST1		
2-Dec	A	ST1	PRACTICAL ASSESSMENT (forms part of ST1 – rest from continuous assessment)	
9-Dec	В	14	What makes a good song? (10 weeks)	
16-Dec			Students will explore the genre of popular song in terms of the different structural, textural and elemental components in order to provide a more in-depth answer to the unit's title: 'What Makes a Good Song?' They will explore song structure and how a typical popular song is made up of different structural elements before exploring (or revisiting) primary (I, IV, V and V7) and secondary chords (VI), song textures and instruments, timbres and sonorities used to accompany popular songs. Hooks are Riffs in popular songs are also explored briefly. Through a series of performing and listening tasks, students use lead sheets of popular songs to perform parts from and to analyse musical features from which introduces them to this form of musical notation. This is not a "song writing" unit, but through the exploration and analyses of popular songs, it does provide valuable skills, knowledge and understanding to prepare pupils to create their own songs in future project.	Curriculum areas: Listening – Deliberately listening to 'Shape of you' and 'Shotgun' and describe and compare the different elements of these songs using appropriate music-specific terminology. Performing – Play parts from 'Shape of you' and 'Shotgun', both as an individual and as part of a group. Composing – Create own songs which utilise the compositional devices studied, eg riff; and to perform their music to the rest of the class.
	А	15	Lesson 1 – Exploring the song 'Shape of you' by Ed Sheeran, looking at lyrics, riffs and structure. Lesson 2 – Exploring the song 'Shape of you' by Ed Sheeran, looking at melody.	Assessment of Progress: Written and verbal responses to both songs.

Lesson 3 – Exploring the song 'Shotgun' by George Ezra, looking at lyrics, riffs and structure.

Lesson 4 - Exploring the song 'Shotgun' by George Ezra, looking at melody. Lessons 6 and 7 – Performing a popular song.

Lesson 8 and 9 – Composing a popular song, using all of the 'good bits' studied so far. Lesson 10 - Sharing of work, recording and assessment.

GW: Students can distinguish between riffs, structure, lyrics and melody in songs and describe their use with guidance. They can perform simple parts such as basic riffs of well-known songs on their own and in unison. They can also compose initial ideas for a simple riff, melody and lyrics without arranging them into a structure or performing a simple part within a group arrangement of a popular song e.g. a single chorus. They will use the words "Step" and "Leap" when describing melodic motion and identify some common instruments used within popular songs

BI: Students can describe the use of riffs, structure, lyrics and melody in songs, using appropriate musical vocabulary and perform independent parts of well-known songs on their own and in an ensemble. They can compose a simple riff and melody complete with lyrics and arrange them into a simple structure using elements of popular song form. They can perform a more complex part within a group arrangement of a popular song consisting of more than one part e.g. verses and repeating chorus. They can use the words "Conjunct" and "Disjunct" when describing melodic motion aurally and when looking at melodies in staff notation and understand and use all elements and terms relating to popular song structure through listening and appraising, composing and performing.

Terminal performance and composition and resulting teacher assessment. Content will be assessed at ST2 (Summer 25)

Vocabulary:

General elements of music eg rhythm, melody etc. Language specific to the genre eg Intro, Verse, Pre-Chorus, Chorus, Middle 8/Bridge, Instrumental Solo, Coda/Outro; Riff, Hook, Melody, Lyrics, Chord, Bass Line, Texture, Accompaniments, Instruments of Popular Music; Melodic Motion – Conjunct and Disjunct.

History:

The historical and social context of popular song and the communication of personal and social expression in a global context.

EW: Students can analyse and describe the characteristics of riffs, structure, lyrics and melody and apply their learning to other songs. They can perform independent parts of well-known songs with expression and sensitivity to other parts, taking a lead in an ensemble. They can compose interesting riffs and melodies with lyrics and arrange and perform them within a complete popular song structure. They will also perform technically complex parts within a group arrangement of a popular song complete with more advanced elements e.g. an introduction, bridge/middle 8 and coda and identify how orchestral and acoustic instruments have been used in popular songs.

Lesson 6 – An interview with The Beatles

Lessons 7 and 8 - Putting it all together - what do you know and what can you do?

GW: Students can understand the historical and cultural importance of The Beatles and can appreciate and talk about selected songs, using appropriate musical terminology.

BI: Students can understand the historical and cultural importance of The Beatles and talk about the ways in which they were revolutionary. They can also hear and appreciate devices such as use of recording effects to change how music sounds.

EW: Students can listen with intelligence to different Beatles songs and discuss how particular musical elements combine to create particular and apt outcomes. They can understand and reiterate how the Beatles changed the course of the history of music forever.

Vocabulary:

General elements of music eg rhythm, melody etc.

History:

The historical and social context of using music as a means of communication and celebration through the ages. Links between Western and non-Western culture.

ST2

Body Beats (7 weeks)

music.

Students will explore rhythms and mnemonics to create complex textures, using different parts of their bodies and some junk percussion. Alongside musical development we will draw upon the kinaesthetic benefits of 'body music', providing opportunities for 'creative exercise', developing coordination and well-being. There will be multiple opportunities to perform and compose both as an individual and as part of a group.

Curriculum areas:

Listening – Deliberately listening to body music from around the world, for example Ethiopian armpit music, gumboot dancing etc and to be able to describe and compare versions of this music using appropriate music-specific terminology and

Lesson 1 – The origins of body music. Exploring the history of and global nature of one of the oldest forms of communication. Looking at pulse and backbeat.

Lesson 2 – Use of symbols and simple rhythm-making both as an individual and as part of a group.

Lesson 3 – Exploring existing music – Ghanian circle clapping and 'Pipes' from Stomp.

Lesson 4 – Rhythms from around the world – listening and performing.

Lessons 5, 6 and 7 – Composing and performing your own piece of 'body music'. Sharing of work and assessment.

GW: Students can perform simple body percussion rhythms in time, on their own, with a regular sense of pulse. They can keep a steady pulse within a small group of performers. **BI:** Students can perform more complex body percussion rhythms in time, on their own and as part of a group, with a regular sense of pulse. They can take a leading role within a small group of performers.

EW: Students can perform complex syncopated body percussion rhythms in time, on their own and in a group, with a regular sense of pulse. They can embellish given rhythm patterns to create their own textures within a group.

Prior (Y6)	Now (Y7)	Next (Y8)

	textures and timbres.	

understanding what elements of music come together to create this type of musical texture.

Performing - Play increasingly complex body rhythms and pulses, using syncopation, both as an individual and as part of a group.

Composing – Create own piece in a chosen style, using the techniques studied; and to perform their music to the rest of the class.

Assessment of Progress:

Written and verbal responses to both familiar and previously unheard music. Terminal performance and composition and resulting teacher assessment.

Vocabulary:

General elements of music eg rhythm, melody etc. Language specific to the genre eg syncopation, son clave, phase, pulse, rhythm, call and response.

History:

Rhythmic and oral traditions from around the world. Adopting these traditions for the stage and the 21st century. The historical and social context of using music as a means of communication and celebration through the ages.

(Total: 189 Days)
